REICHSTAG MEMBERS LAUGH AT CHANCE OF ALLIES TO COLLECT REPARATION TO THE AMOUNT SET BY COMMISSION

By JOHN DE GANDT
(United Press Staff Correspondent)

PARIS, February 2—Germany today was laughing in the face of the Allies. Laughing in derision at the demand for an indemnity of fifty five billion dollars.

The Allies are faced with the possibility of a flat refusal to pay the huge sum. In that event seizure of the German ports and a forcible collection of customs was contemplated. This, it was admitted, might lead to armed clashes.

Dispatches from Berlin which were eagerly scanned at the foreign office here said that derisive laughter swept the Reichstag when Foreign Minister Von Simons addressed that body and made known the amount of the Allied demand. Von Simons made it pretty clear that Germany will reply that it cannot pay such a sum.

The next move of Germany will be to reorganize the cabinet to demonstrate to the Allies that all parties are united in their attitude against paying a big indemnity.

According to information in official circles Germany expects the moral support of America in this stand and is much interested in the reported intention of Senator France to introduce a resolution limiting the indemnities to what they regard a reasonable figure. Germany will take comfort from the statements of economists in all of the Allied nations to the effect that she cannot afford to pay fifty-five billion dollars.

PENNA. HOUSE PASSES DEFICIENCY BILL FALSE FIRE ALARM IS NOW CRIMINAL

HARRISBURG, February 2—Without a dissenting vote the House today passed the deficiency bill carrying appropriations of $3,238,000. The bill originally called for appropriations to meet a deficiency of $3,479,000. It was amended in Committee upon the recommendation of the Governor following his conference Saturday with department heads and Chairman McKaig of the Appropriations Committee.

A bill making it unlawful to send in a false fire alarm or meddle with fire alarms was the first measure voted out by the House at this session. It passed without a dissenting voice H. H. Finney of Meadville is its author.

STANDARD OIL COMPANY OF NEW JERSEY CUTS BONUS TO MEN ON FEBRUARY 15

NEW YORK, February 2—The weekly bonus to employes of the Standard Oil Company of New Jersey will be discontinued February 15, it was announced here today. This reduction of wages affects approximately 20,000 men employed by the company in West Virginia, Maryland, District of Columbia North Carolina, South Carolina and New Jersey. The company has increased wages 246 per cent. since 1915 according to officials and then provided a bonus for employes until the cost of living was reduced.

NEWBERRY NEARLY 5000 VOTES AHEAD IN SENATE RECOUNT OF MICH. VOTES

WASHINGTON, February 2—The Senate election committee's recount of the 1918 Michigan election was concluded today. The vote showed for Ford 212,751 and for Newberry 217,085.

BRITISH AT TEHERAN IN COMBAT WITH RED TROOPS

TEHERAN, February 2—British soldiers and the Bolsheviki met in battle Saturday, according to military advices here today. British outposts on the northeastern frontier of Persia were attacked by the Bolsheviki advance post. The British vigorously counter attacked killing 12 and injuring 27. There were no British casualties.

U. S. SUB RAMMED BY PILOT SHIP

WASHINGTON, February 2—The submarine L1 was rammed today by the pilot ship Philadelphia at Overalls light ship. Secretary Daniels was advised by the naval commandant at Philadelphia. The accident occurred at 7:30 a. m.

BURGLAR PLAYS ON SYMPATHY

NORTH BERGREN, N. J., February 2—Using the plea that his wife was ill and he wanted to use the telephone for the doctor a burglar gained entrance to the Schneider & Wasserman Emporium here today and escaped with clothing and groceries valued at $10,000.

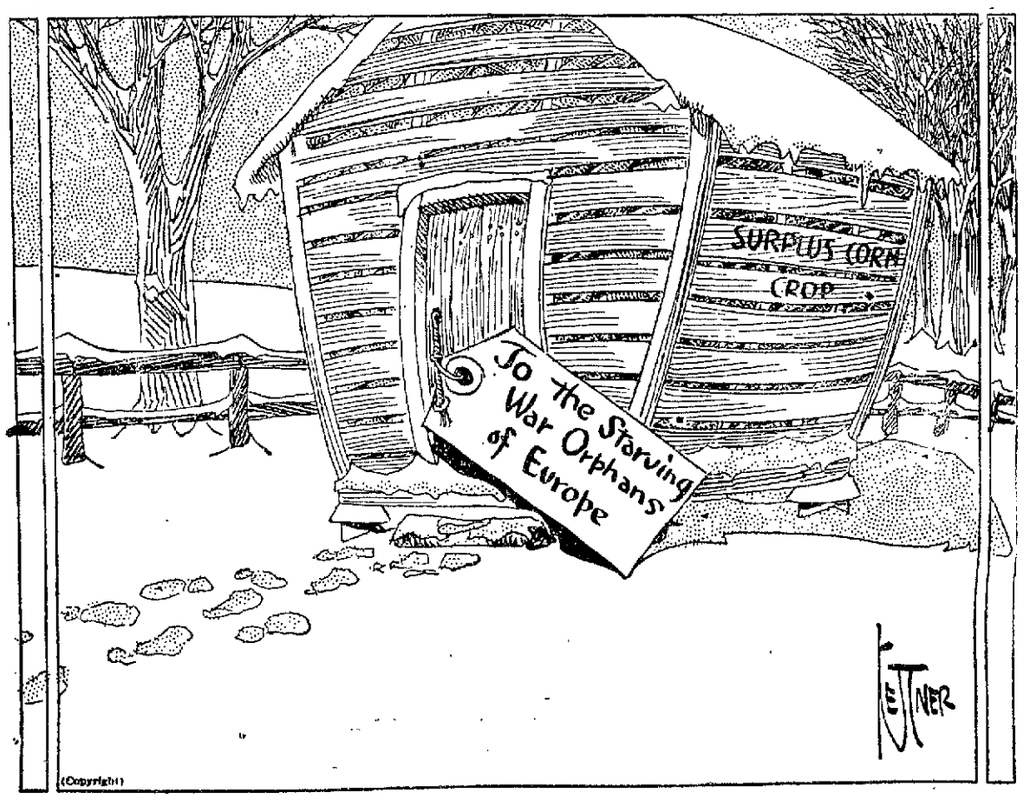
WEST SIDE COUPLE MARRIED

Joseph Turner and Miss Maude Phillips, a popular West Side couple, were married by Rev. M. A. Ryan at St. Francis parsonage at 9 o'clock this morning. The attendants were Rex Fauver and Miss Janet Puckett.

MALACHI KRATZER'S FUNERAL

The funeral of the late Malachi Kratzer will be held from the William's home on Nichols street Friday afternoon at 2:30 o'clock. Rev Snavely of the West Side Methodist church will officiate and interment will be made in Hillcrest cemetery.

Latchstring Is Out



MALLON AND BUTLER BUY WEEKLY SPIRIT PLANT FROM SAVAGE

New Owners Have Not Yet Decided Whether They Will Continue Publication of the Weekly Newspaper.

SAVAGE TO REMAIN HERE

Messrs. Mallon and Butler, of the Commercial Printing Company, have purchased the Public Spirit printing plant from Matt Savage, who conducted the Public Spirit since August 1, 1890.

Whether or not the new proprietors will run a newspaper in connection with their printing establishment has not been decided yet.

Mr. Savage expects to continue his real estate business and will remain in Clearfield.

Producers, 3 5-8; Penna., 40 1-2; U. S. Steel, 81 3-4.

TEACHER CHARGED WITH CRUELTY TO ONE OF SCHOLARS

A Bell township school teacher has been arrested on an assault and battery and cruelty charge by the father of one of her pupils, who alleges undue severity in the application of corporal punishment.

The teacher is Miss Josephine Diehl and the information which resulted in her being returned to court was made by Claude Sherwood, father of Joe Sherwood, the 13 year old pupil alleged to have been severely punished.

The information, made before Squire McQuown at Mahaffey, charges that "on the 28th of January Josephine Diehl did wantonly and cruelly beat with a club one Joe Sherwood aged 13; that said beating was done without any just cause or provocation. Affiant further says that the legs and body of the boy were terribly bruised as a result of the beating given him; that said beating was done in the school house in Bell township where the defendant is teaching and the boy is a pupil."

When the teacher heard of the information she waived the formality of arrest and hearing by entering bail in the sum of $200 for her appearance at next term of criminal court, where the case will be threshed out.

H. C. KING, N. Y. C. CONDUCTOR, DIED AT HOSPITAL

Received Skull Fracture in Accident On River Line Yesterday Afternoon About Four O'clock.

LIVED AT JERSEY SHORE

H. C. King, aged about 50 years whose home was in Jersey Shore, died at the Clearfield Hospital about 1:30 o'clock this morning as the result of a fractured skull received in an accident which occurred on the River Line of the New York Central yesterday afternoon between 3 and 4 o'clock.

Mr. King, who was a freight conductor on the New York Central was in the caboose of his train coming to Clearfield. The train broke near Gray and when the rear half ran into the front end King was thrown on his head with such force as to badly fracture his skull.

He was brought to the Clearfield Hospital but his injuries were such that medical aid was of no avail.

FAMILY BIRTHDAY CELEBRATION

Benjamin F. Chase arrived at the fifty-second mile stone on life's journey yesterday and as his sister-in-law, Mrs. Joseph R. Chase, was born on February 1 also, a happy family birthday dinner was given in the private dining room at the Dimeling Hotel last evening.

COURT NOTES

Notice of appeal from the award of the Workman's Compensation Board was filed in the prothonotary's office yesterday by the Northwestern Mining and Exchange Company in the case wherein compensation was awarded Mary E. Anderson. In this case the Compensation Board awarded Mrs. Anderson $705.76 to pay funeral expenses and other bills and directed that the Northwestern Mining and Exchange Company make payment of the lump sum and be reimbursed for same by the payment of compensation at the rate of $3.84 per week dating from January 18, 1921, and extending for a period of 277 weeks.

The company contends the compensation board has no authority to make such a decision.

Good Manners Make for Comfort.

Good manners are mainly system in society. In a large sense the whole human race is society. We count it good practice to keep to the right, and those who keep to the left are guilty of bad manners as well as bad practice. Good manners is good system in behavior. System is always labor saving, and we need to look to our manners in this modern day for that reason.

The Opposite Perhaps.

"Hard work will kill no one," declares a literary editor. Most people, of course prefer an occupation with a spice of danger about it.—London Punch.

THIRD WARD HOSE CO. ENTERTAINS AT SMOKER FEED

Fire Laddies Prove They Can Serve Refreshments Just as Promptly As Go To a Big Fire.

MANY TALKS ENJOYED

A very enjoyable "smoker" was held at the Third Ward hose house last evening, the Third Ward boys having decided to treat their members and a few invited guests to a little "feed" on the side.

A business meeting preceded the refreshments more than 60 members of the company participating therein.

The Third Ward company is one of the most aggressive and progressive companies in the department and is always on the job either as hosts or entertainers or when the fire alarm requires their services.

Foreman Whitehill presided at the business session and turned the "feed" over to O. C. Barger, who made a capable master of ceremonies. Talks were made by Cosner Stull, Jack Wise, M. E. Troxell John Harry, J. A. Myers, W. E Spackman, John H. Moore, Eddie Schenck, Foreman Whitehill, Chief A. P. Kreber and J. D. Connelly.

The eats were delicious and the occasion very much enjoyed by all.

GRASSFLAT

A home talent play was held in the U. M. W. of A. hall Saturday evening January 29 by the Dramatic club entitled "The Dutch Detective" which proved very successful. It was well attended by all from far and near We hope the Dramatic club will soon entertain us with another play in the near future. Music was furnished by the Splinterville Orchestra.

A Golden Wedding was celebrated by Mr. and Mrs. Charles Eld, January 28. They were presented with many gifts. The children were all there as follows: Adolf and Oscar of West Va.; August, of Jerome, Pa.; Mrs Wachter and Ellen of Pittsburgh and Esther, Anna, Erie and Elmer, at home. There were also present 34 grand children.

Wilber Edgar Potter late of Clarkston, Wash., passed away January 21, 1921 of acute indigestion. He leaves to mourn his wife and two sons and a daughter. His remains were laid at rest in the United Brethren Cemetery, Sunday, January 28. He also leaves his mother, Mrs. Ida Potter and one sister Mrs. Ida Brown, of Youngstown, Ohio and one brother, Vernon, at home.

The daughter of William Hutching passed away Sunday, January 30, aged 1 1-2 years, named Marie Hutching.

RIVER BRIDGES HAVE TO WAIT ON APPROPRIATION

Which Will be Delayed Until a Few Days Before Legislature Adjourns Says State Official

INSUFFICIENT FUNDS NOW

The following letter was received today from the State Department of Public Grounds and Buildings and is in reference to the Rolling Stone and Deer Creek bridges:

"I beg to acknowledge receipt of your communication of January 27, in which you state that you are desirous of learning something concerning the status of what is known as Rolling Stone and Deer Creek bridges in Clearfield county, which were washed away during the flood in March, 1920.

You refer to your applications for the rebuilding of these two structures which is on file in this office at Harrisburg, but on account of insufficient funds in the appropriations available to this department for the rebuilding of bridges, the matter has been delayed. You ask me to furnish you with whatever information we may have regarding the attitude of the department having this mater in charge and the possibility of an appropriation being made at an early date sufficient to supply these ridges. In reply I beg to advise that we will include in our budget, moneys sufficient to rebuild the two bridges above refered to, but inasmuch as this is one of the items contained in the general appropriation bill, the same is not liable to be passed until a few days before the closing of the session of the Legislature.

Yours very truly,
SAMUEL B. RAMBO,
Asst. Deputy Supt.

SPORTING NOTES

The Columbia Athletic Club of DuBois has arranged a fine boxing program for its Thursday night's entertainment.

Val Grunen, of Pittsburgh, who recently fought Young Jack Dempsey at DuBois, will be one of the attractions in the main bout. He will meet Johnny Griffith, of Rochester, N. Y.

In addition to the big scrap there will be several good preliminaries and a number of Clearfield boxing fans are arranging to attend the show.

Patterson, the Curwensville wrestler, appears to be peeved over Bill Gardner's recent defi in The Progress and told "our devil" over the telephone last evening that he was coming down and clean out this office some day.' We could not quite understand from what "the devil" told us just what Patterson meant, but will say that the office needs cleaning out and we are in favor of having it done—so is the board of health.

We just want to say, however, that in reply to Gardner's recent challenge we received the following from Mr. Patterson:

Curwensville, Pa., Jan. 28, 1921.
Editor Progress:

In regards to the slurry challenge that was in The Progress on January 28 Pat Patterson states he will wrestle Gardner at named date in Clearfield. Conditions winner take all. There is no place in Curwensville to wrestle. Gardner can name the date.

Pat Patterson.

We showed this reply to Manager Edwards, who looks after Gardner's interests, and who is responsible for the challenges issued. The genial manager says Patterson does not meet the issue as Gardner can easily flop him and he would therefore not prove a drawing card in Clearfield. Hence his offer to meet Patterson in his own home town, but says that if the Curwensville grappler will put up a side bet enough to make it worth while he will have Gardner met him up there in a barn or any old place and toss him for the coin.

Now if Patterson will just turn his attention to cleaning up Gardner and kindly let us attend to that cleaning out of The Progress office we (including "the devil") will have some fun and we'll promise to be present and report the wrestling match.

LUMBER JOBBER FOR SHIREY FIRM IS LODGED IN JAIL

Failed to Keep Appointment With Senior Member of Firm After Obtaining Money for Payrolls.

ARRESTED AT DUBOIS, PA.

M. D. Nerraf, who is said to be from Oil City, was lodged in jail this morning charged with false pretense and embezzlement. The information upon which Nerraf was arrested was made by B. E. Shirey of the lumber firm of Ed. L. Shirey and Son.

It appears that Nerraf had been jobbing for Shirey and Son at or near Bell's Landing. It is alleged that on Saturday last Nerraf came to Clearfield and got an advance of $800 with which to make up his pay roll. Yesterday Nerraf again appeared at the office of the lumber company here and asked for another advance of $250, claiming the first amount insufficient to pay off his men.

Ed L. Shirey then notified Nerraf that he proposed accompanying him to the job in order to check up on the amount of lumber cut to date. The two men got on the New York Central train, but Nerraf said he did not care to ride in the smoker and left Mr. Shirey for the other car. When the train arrived at Bell's Landing Nerraf was missing, and Mr. Shirey found the men had not been paid.

Mr. Shirey notified his office here and B. E. Shirey started out to round up the missing jobber. He learned that the man he was seeking had got on the B., R. & P. train to DuBois at Bloom's Run and the police of DuBois were notified.

Patrolman Morris of DuBois located Nerraf at a DuBois hotel, where he had registered under an assumed name. He was taken into custody and brought to Clearfield this morning and was sent to jail by Squire Chorpenning in default of $500 bail.

WILL ASSIST IN FESTIVITIES

The Clearfield fire department, accompanied by the American Legion Band will visit Philipsburg this evening, leaving here on the 6:28 o'clock Pennsylvania train and returning on the 11:20.

The Reliance Fire Company of Philipsburg will open its four day bazaar tonight and the local boys will take an "opener" or two along to help out.

DIMELING DWELLING HOUSE BURNED

The two story frame dwelling house just above the station at Dimeling, which was owned by the New York Central Railroad Company and occupied by Roy Augustino, the section foreman, was destroyed by fire this morning about 10:30 o'clock. The fire was caused by a defective flue. The damage is placed at $2,000.

NICKEL—ROYER

Joseph Nickel and Miss Clara Royer, both of Boggs township, were married at St. Francis parsonage by Rev. M. A. Ryan yesterday morning at 7:30 o'clock.

TODAY IN CONGRESS

In the Senate

The Senate to vote on the application of the cloture to the Fordney emergency tariff bill. Ford-Newberry recount to be completed. Naval affairs committee names a sub-committee on the naval holiday resolution.

In the House

General Pershing gives his views on disarmament before the naval affairs committee. Charles Dawes appears before the war department expense committee on the purchase of army supplies. Appropriations committee expects to report the naval appropriations bill. Ways and means committee continues hearings on the revision of wool tariff. Foreign affairs committee continues consideration of the resolution for information as to trading with Soviet Russia. Agriculture committee considers bill to prevent gambling in grain futures.

Where Your Money Goes

The poor and needy and other unfortunate we have with us always, and that it requires a pretty penny of the taxpayers to look after such people in Clearfield county annually evidenced by a little delving into the statistics which are contained in the report of the County Auditors of the receipts and expenditures for the county during 1920

Clearfield county was called upon to support 221 insane persons last year Of the number 141 were males and 80 females They were divided among the different state institutions as follows, together with the cost of each

	M	F	Cost
Danville	69	43	$14,372 70
Warren	23	23	7,647 07
Fairview (criminal)	8	0	1,015 72
Polk (feeble minded)	26	11	915 50
Wernersville	1	0	150 00
Torrance	1	0	126 43
Totals	141	80	$25,916 22

In addition to the above the cost of orphan and incorrigible children made a levy on the county treasury of $7101 51 The county had as wards 43 children They were located as follows with the amount paid to each institution

Children's Home (Clearfield)	16	9	$ 1872
St Joseph's Orph H	5	6	731 52
St Johns' Protec	2	0	130 78
Clemans Home (Col)	2	8	70 56
Salvation Army Home	0	2	37 29
Total	28	17	$7101 51

The keeping of prisoners in the different penal institutions of the state added another $23,176 45 to the taxpayers' burden This huge sum was necessary to pay for the care and keeping of 301 malefactors, of various degrees of crime They were located as follows, with the cost at each institution

Penitentiary	50	1	$19 071 58
Huntingdon Reform	23	0	7471
Glen Mills	15	12	6,537 72
Totals	88	13	$23 176 45

The above totals are not all that crime and criminals cost Clearfield county during 1920 The expense of maintaining the county jail added another $8,000 to the bill while Commonwealth costs paid by the county totaled $2306 42 The District Attorney got another $3,000 while Grand Jurors were paid $936 88 and Traverse Jurors drew down $9,825 00 The traverse jury fees were not all for criminal cases The pay of the tipstaffs amounted to $838 As an offset to some of this expense $1195 was received by the county in the way of fines

The County Home added in the neighborhood of $45,000 or $50,000 more to the general bill This was divided as follows

Maintainance of inmates	$19 473 37
Salary employes	7,697 91
Supplies	5 585 60
Incidentals	1 765 99
Miscelaneous overhead ex	$4 200 09

Then as a further insight into where your money goes we find the following expenditures in a cursory glance through the figures

Mothers' pensions	$2 272 30
The state pays a like amount to this fund	
Birth and deaths registry	$1084 55
County officials salaries	3 199 25
Assessors	10 776 08
Bridge repairs	10 095 00
State roads, damages, detour etc	4 938 86
Farm bureau	1 500 00
Election expense	14 971 67
District Physicians	2 481 25
Outside relief	20 356 17
Outside burial	1,001 85
Burial of soldiers during the war cost	$250 00
Burial of soldiers wife	75 00
Memorial Day appropriations	000

The County Home farm raised according to an estimate of the county auditors farm produce to the value of $14 280 00

In addition to this amount the county Directors by arrangement with the County Commissioners provide for the payment of a fixed sum per capita for the keeping of feeble minded children and insane criminals at Polk Institution

Where Every Dollar of Your Money Goes the middle man and the commission man in Queen Victoria's time got 50 cents out of every dollar that was paid for the necessaries of life

SHE WASN'T SICK, BUT HER CHILDREN WERE

Six Months of Care and Worry Were Too Much for Her

GOT THIN NERVOUS, TIRED

Her Brother-in-Law, a Doctor Said She Was Anemic, and Advised Pepto Mangan

Here is a story of a strong, vigorous mother who never knew what ill health was But three years ago her two little boys got into the habit of being sick.

Six months of care and worry were so much for her and brought to light the fact that with all her apparent vigor she really was anemic She lost flesh couldn't sleep well and got nervous

Then the doctor (her brother-in-law) prescribed Pepto-Mangan.

She said: He explained a lot but it was special sort of non-content in Pepto Mangan, and a lot of other things that I don't understand but what I do know and is that a bottle of Pepto Mangan always seems to help me when I'm run down nervous and tired Pepto Mangan is also good for children and mothers to be

KEYSTONE
The ICE CREAM THAT EVERYONE LIKES

ALL TIRED OUT

Hundreds More in Clearfield in the Same Plight

Tired all the time.
Weary and worn out night and day.
Back aches; head aches.
Your kidneys are probably weakened
You should help them at their work.

Mrs. Jane Graham, 125 Fulton St, Clearfield, says: "I suffered from kidney complaint some time ago. There was a dull ache in the small of my back and I had severe headaches. I also had a tired feeling in my loins. On using one box of Doan's Kidney Pills the backaches and headaches left and I didn't have that dull, tired feeling any more. I think Doan's Kidney Pills are a wonderful kidney remedy and I found them to do me a lot of good from the start. Two boxes of this medicine fixed me up in fine shape. Since then, when I have had an attack of that kind, I have used Doan's and have always found them to bring good results."

Price 60c at al dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Graham had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. No griping results from these pleasant little tablets. They cause the liver and bowels to act normally. They never force them to unnatural action. Dr. Edwards' Olive Tablets are a soothing, healing, vegetable compound mixed with olive oil.

If you have a bad taste, bad breath, feel dull, tired, are constipated or bilious, you'll find quick and sure results from Dr. Edwards' little Olive Tablets at bedtime. 10c and 30c a box.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

Remember Your Income Tax

Now is the time to begin to figure the income tax. It is an irritable job, even if the process has been somewhat simplified since the last payment. Failure to file the tax report carries with it a fine not to exceed $1,000 and an imprisonment sentence. Space prohibits our setting forth all the provisions of the income tax law. Full information can be obtained from your local banker.

Watch the Brood Sow's Feed

One is tempted to keep his brood sows too fat for best results. It is a strange fact that a sow too fat will produce pigs that are underweight and few in number. So the sow's feed should be chosen wisely, limiting the fat-making elements. She should have feed that is rough and high in protein. Alfalfa hay is exceptionally good Above all else, see that she is not closely confined, but has room to exercise.

Hitching Horses in the Cold

How would you like to carry a load for several miles, these cold days, and then be forced to stand still out in the cold for an hour or so, without any extra wraps? Not many would survive. It's just as cruel to treat a team of horses so. But in these days of near zero weather one can see many horses hitched along Main street, with no sign of blankets. For the lessening of this evil, the United Horses' Union doubtless would, if they could, give a unanimous vote of thanks to Henry Ford.

Brush Destroyers at $3.00 a Head

Sheep are now down to the ridiculously low price of $3 a hundred pounds, which means that full grown ewes will bring about $2 to $3.50 a head—about one-tenth their price two years ago this Winter. Then every one was buying. Now no one wants them. But right now the rule of the old Montana horseman is worth remembering. He made his fortune, he says, by selling when the majority wanted to buy, and buying when every one else wanted to sell a mighty sensible plan to follow. Sheep will not stay long at such an absurd price—the cost of two good hens. If one got them only to clean up his place, to mow down his weeds and destroy the brush, they would be worth more than their present price.

Don't Buy Newly Fresh Cow

The best time to sell a milk cow is when she is just fresh. And following the logic of this truth, that is theoretically the poorest time to buy. It is in fact. It is a mistake made by many young dairymen—and old ones, too, for that matter—as is evidenced by the big prices these cows bring at every public sale. The newly fresh cow displays all her virtues and none of her defects. All that can be told about her is that she gives a big volume of milk, but one knows not how long it will continue, nor even its degree of richness. A far better rule is to buy cows whose calves are at least two months old.

Planning the Year's Work

Planning the next year's work with pencil and paper is not practiced enough. The great good that comes from the outlining of a definite program is the setting of standards towards which to work. The program should include every phase of the farm work, and it is worth while to talk it over with the boys and the female side of the family. Certain fields should be allotted to corn, others to oats, etc., the yields estimated, and plans made for handling the grain. Such advance planning stimulates the interest of the young folks, for it cements the efforts and directs them toward a common object. A proposal of a bonus for high yields or exceptional success with poultry, dairy, etc., above a previously determined quota, helps solve the problem of how to keep the young folks on the farm.

Mrs. Charles Hile left yesterday for Homer City, where she will spend several days with relatives.

Miss Mildred Sample has returned from spending the past few days in Spangler.

Mr. and Mrs. Paul Rook spent today with friends in DuBois.

Mrs. Harry Buchanan and son, Marvin, left yesterday for Pittsburgh, where Mrs. Buchannan will attend the convention of Children's Home representatives, which is being held there the latter part of this week.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

George McClure, who has the contract for cutting timber and supplying the mill operated by the Greenwood Lumber Company on Poplar Run with logs, will finish cutting in about two weeks more. There are about half a dozen or more Curwensville men working on the job, all of whom are good, live men in the woods. Eighty logs per day for a two handed crew is not such a bad day's work in hardwood lumber.

J. C. Wright is the new foreman on the construction work of the Bigler coal railroad in Pike and Lawrence townships. The road is being built for the purpose of taking away the coal under the Jesse Garrison Rowles, Bloom and Morgan lands which the Bigler company purchased last Fall. It will be some road when completed, having a good many curves, hooks, crooks and turns before making connection with the loading chutes. "Boots" Connelly is the contractor and with Mr. Wright, a practical railroad man, as foreman, is a guarantee that the job will be well and mechanically done.

The mild weather of yesterday about spoiled the sledding of the past few days. Percy Holton, the Filbert street restaurant man, is about the only person we know of who enjoyed the snow while it lasted, he having a horse and sleigh and was out every day, giving some friend a reminder of the old days by giving him a ride and a chance to hear the sleigh bells tinkling. Percy is not one bit selfish, and likes to make things enjoyable and pleasant for every one.

John Kelly, the most expert hunter we know of in this section and who shot more foxes this season than all of the town hunters put together, liberated about a dozen rabbits in the hill woods above his home on the south side of Anderson creek several days ago.

IS DOWN TO REAL BUSINESS AGAIN

District Manager Bailey Tells Of Wonderful Change in Condition

A. D. Bailey, district manager of the Continental Casualty Co., with offices at 1118 11th St., Altoona, is another prominent Pennsylvania business man who adds his name to the hundreds of other prominent men who have publicly endorsed Tanlac.

"I certainly feel very deeply indebted to the friend who advised me to take Tanlac" he said, "for I can conscientiously state that it has done me a world of good.

"For one whole year I felt myself gradually slipping and was on the verge of a nervous and physical breakdown. I was not only losing weight but my old time strength and energy had gone, which made my daily routine of business calls more tiresome. I was troubled a great deal with shortness of breath and when I went to climb a hill or steep flight of steps, became completely exhausted upon reaching the top. I felt that I was becoming old before my time. Nearly every day I had a severe headache and often while sitting at my desk would become so dizzy and confused that I would have to discontinue work for a while, then I would feel too worn out and weak to resume the day's duties.

"But since taking Tanlac my friends all say that I am the picture of health. I am certainly feeling fine. I have a wonderful appetite, which is gradually giving me back my old strength and energy. My breathing is as regular as a child's and I never have the least trouble, no matter how fast or how much I walk. My office looks good to me and it is a pleasure to be able to get down to real business again. Tanlac is a dependable medicine and it has my hearty endorsement."

Tanlac is sold by all leading druggists everywhere.

Mr. and Mrs. George McCullough spent yesterday with relatives here.

HEALTH OF WOMEN

How many perfectly well women do you know? Isn't it true that in order to keep up with the march of progress the endurance of women is often strained to its utmost and the tax upon her physical system is in many cases greater than she can stand. Headaches develop, and nervous irritability, backache, dragging down sensations, and other painful ailments peculiar to women. The reliable remedy when a woman gets into such a condition is Lydia E. Pinkham's Vegetable Compound, as for nearly half a century it has proved the natural restorative for these troubles.

ESSEX

The New Essex Cabriolet

Note How Former Big Car Owners Turn to Essex

We think nothing so typifies the position Essex has earned among cars of fine quality as the way in which it has found favor with men who formerly owned large, high-priced cars exclusively.

The uses of most motorists are not best served by a large car. Bigness and weight are definite handicaps in city driving.

Yet thousands who now drive the Essex, formerly accepted these handicaps and paid a premium to secure the big car performance, comfort and distinction, which no light car offered, prior to Essex.

Alexander White, declared to be Scotland's greatest preacher, died recently. Our townsman, Alexander Paterson once sat under the spell of his logic and oratory and was so interested in him that he inquired into his career. Mr. Paterson found that the reverend started life as a shoemaker. Pegging away will land any man at the top.

WHEN WILL WE BE SATISFIED?

Never. That is a foregone conclusion but in this matter of price reduction when will we look upon the prices of the necessities we buy with a feeling that thy are just and right? One need only peruse the advertisements printed daily to see wonderful reductions in many lines, reductions which we had no reason to hope for four months ago. The price level has been brought down on practically everything we buy and in reversal of the old saw that it is an ill wind that blows nobody good we might add that our fortune is another's misfortune. Farmers have no market for cotton and wool or grain. The brick, coal, silk, cotton and woolen workers are working short time.

Just to face the question squarely, what do most of us have in mind when we think of FAIR prices?

We think of LOW prices.

That's about the fact isn't it?

But when we realize that LOW prices, if pushed low enough, MUST mean low WAGES and SALARIES, then we are fairly sure that we don't want to go the LIMIT!

We don't want to carry the thing TOO far!

When we carry ANYTHING to an extreme, we usually get hurt as badly as the other fellow.

The fact is that whatever I do, or you do, affects someone else—for good or for ill.

If each of us—each of the 100,000,000—does something good and constructive, the whole public is bettered at once.

And, the reverse, likewise, is true.

We can bring things to an utter standstill by waiting longer for lower prices. We do not need to buy simply for the sake of buying but we can buy what we need and promote the general welfare. Purchases needlessly withheld, hurt the retailer first—after that they hurt all—the manufacturer, the producer of raw material and finally, but not last, the worker, you and I.

Buy prudently but buy now. Scan the advertising columns closely. You will be surprised at the change in prices.

Working of Pearl.

There are two kinds of shells used in the manufacture of small articles, the porcelaneous and the nacreous. The former are extremely hard and can be worked only with the apparatus used by the lapidary. The latter are more generally used and may be sawed, filed and turned with some facility. The pieces should be roughed out on a common grindstone. After turning they should be smoothed with pumice stone and water, and polished with rotten stone with sulphuric acid slightly diluted.

PEGGY coughed for an hour after bedtime until Mother thought of Kemp's Balsam. A half teaspoonful quickly relieved the irritation, after which she soon went to sleep.

BUSINESS AND TRADE

With Special Attention to Coal, Clay and Brick Trade News of Local Interest.

SALIENT FEATURES OF THE CALDER COAL ACT

To promote the "general welfare" and to recognize and declare coal and its production charged with public interest and use, and for other purposes, Senator Calder introduced on January 10, 1921, his bill to regulate the coal industry. The "Federal Coal Act," for it is so officially designated and therefore travels under no alias, charges that coal and its sufficient and economical production and proper distribution, and information respecting "ownership, production, distribution, costs, sales and profits in the coal industry are necesary to the general welfare of the people of the United States" and to Congress for the purpose of legislating respecting interstate and foreign commerce, public health, taxation and other matters, and that the coal industry in all its phases is "hereby declared to be charged with public interest and use."

The Federal Trade Commission is given sweeping powers and directions as to requiring and obtaining current reports from all engaged in the production and sale of coal with no limit as to its inquisitorial power. Even consumers may be required to furnish information as to coal consumption and stocks. The commission is directed to collect certain minimum data currently and to make reports to Congress and to promptly publish its findings. The commission "shall" name any who are judged guilty of having charged a price deemed unreasonable.

All reports to the commission are nevertheless declared to be confidential and are to be rendered under oath. The commission may, however by a majority vote of its members publish any individual report if deemed in the public interest and any court of competent jurisdiction may require and shall be furnished reports of individuals or of separate companies.

Associations having to do with the coal industry are designated for special investigation, for which the full powers conferred by the bill are declared available, again when deemed necessary in the public interest.

Railroads are required to submit detailed information to the Interstate Commerce Commission, and that commission is directed to collect from the roads data regarding mine rating, loading, movement, reconsignment and other matters. To settle any doubts that may arise as between the reports submitted, as, for instance, regarding car shortages, by the operators to the Trade Commission and by the railroads to the Commerce Commission, these two bodies are adjured to "get together" on the facts.

Survey to Continue to Publish Reports

It also is provided that the Geological Survey shall continue its present series of reports in all details and shall publish them and any additional data that may be required in the public interest. One important feature for the Survey is the provision that the Federal Trade Commission and the Interstate Commerce Commission are authorized and directed to use their legal powers to obtain any reports the Geological Survey may not be able to obtain on its present purely voluntary basis. In other words, the Survey will be given power indirectly to require reports, whereas now it has no such power and has not asked for it. The act gives no powers to the Survey, but confines them to the two other agencies named. Access to books of coal companies and right to subpoena papers, records and witnesses is conferred on the Federal Trade Commission.

Neglect or refusal to meet the demands of the commission may be penalized by fines of not less than $1,000 or more than $5,000 or by imprisonment of not more than one year. A penalty of $100 per day is provided for neglect to make reports, and heavy fine or imprisonment for making incorrect reports Any employe of the Federal Trade Commission who shall divulge without authority any confidential information is liable to $5,000 fine, jail sentence, or both.

To furnish a check on what is going on the bill says that the president shall issue a license to any and all who fall under the jurisdiction of the Federal Trade Commission, and any who shall wilfully engage in the coal business without such a license in good standing and shall be liable to a $5,000 fine or jail. Each applicant for a license must agree in writing to rigidly abide by the requirements of the act.

No license may be required from any operator or dealer whose gross sales during this preceding fiscal year were less than $50,000. Section 12 is one of the most striking in the act in that it states that when the Federal Trade Commision shall determine that an emergency exists or threatens in the coal industry, which seems likely to produce a shortage or bring about unusual or unwarranted or unreasonable prices in coal and to be detrimental to the public health in any part of the United States and the president shall have concurred in such determination by the commission, the president is authorized to declare the existence of an emergency which threatens the public health, and he is empowered to fix a maximum price, commissions and margins during that emergency. He is further empowered to revoke the license of any operator or dealer who shall exceed the maximum established by him, in addition to which, of course, the producer or dealer so exceeding the legal limits is liable to fine and imprisonment. The president is authorized to deal in coal and to control production, movement and distribution to the extent that it may be necessary, again for the protection of the public health.

Except that industrial concerns may own and operate coal mines for their own use and consumption, Section 13 forbids any owner, operator or dealer to sell coal to any concern in which he or any agent of his shall have an interest, except the sale be made under competitive bidding.

Coal procured directly from an operator by a dealer and sold to another dealer is subject to a brokerage tax equivalent to one-half of the commission or margin in excess of 15c. a ton and not more than 30c. a ton. Where the commission or margin exceeds 30c. a ton the brokerage tax that shall be levied under Section 14 of this act is equivalent to three-quarters of the total.

Heavy Tax on Trade Between Dealers

Trading in coal between dealers in coal, not obtained directly from operators, is practically prohibited by the levying of a tax of 90 per cent on all commissions or margins in excess of 5c a ton. No tax shall be assessed against any dealer whose gross annual sales during "his preceding fiscal year" aggregate less than $500,000 on sales of coal procured directly from operators.

The Department of Labor and the Bureau of Mines are thrown in for good measure. The Secretary of Labor is directed to investigate wages, working conditions and other matters pertaining to the workman, in order to supply information for use at any time of general readjustment of wage contracts in the coal industry. The Bureau of Mines is directed to investigate mining methods, storage of coal and other technical matters, none of which apparently represent new duties or powers for that bureau. It is, however, provided that the Bureau of Mines shall investigate and report on statutory standards and inspection for the various kinds and grades of coal.

The Federal Trade Commission, the Interstate Commerce Commission and the Geological Survey are given blanket authority, through the president, to call for any and all information in the possession of any other government office or for the detail of personnel. The president also is authorized to transfer personnel, equipment, records and funds from one bureau to another, as may be deemed necessary in fully carrying out this act.

The aforesaid triumvirate also are directed to keep their records thoroughly revised and available for immediate reference, and subject to the call of any private or public board, state or federal, for use in settling any labor dispute.

The Federal Trade Commission and the Interstate Commerce Commission are given power to make and enforce rules and regulations and to prescribe the method of procedure, it being specifically provided that this act does not limit or repeal any of the powers of either of these agencies under existing law. To permit the carrying out of the detail work called for by the act, $10.000 a year is to be appropriated to the Geological Survey, the same amount to the Interstate Commerce Commission and $25,000 to the Federal Trade Commission.—Coal Age.

Mrs. P. W. Rolley, of Karthaus, was shopping in town yesterday.

Misses Eva McGowan, Celeste Bonner and Ethel Shade attended the dance in DuBois last evening.

Mrs. T. H. Langford and daughter, Esther, of Surveyor, shopped in town today.

Lytle Brothers

Mrs. Frank Harris entertained at a bridge last evening at her home on West Fourth avenue. Four tables of bridge were in play during the evening.

Back Hurt?

When the kidneys do not properly do their work or purify the blood stream, waste products and poisonous acids remain in the system and cause backache, rheumatic pains, lumbago, sore muscles, swollen joints, stiffness, lame back and similar symptoms.

Foley Kidney Pills

regulate and restore the healthy, normal action of kidneys and bladder, bringing clean blood and better health, with freedom from aches and pains.

J George Hudgins, Bennington, Vt writes: "Last fall I was attacked with lumbago and suffered untold agony. I had a severe pain across my back and at times could not dress or undress myself. I was advised to take Foley Kidney Pills for my trouble. After taking them for a few days the pain in my back left me and I have not had any lumbago since that time, although that was months ago. I recommend Foley Kidney Pills to all who have lumbago."

Pictures of Christ.

Pictures of Christ represent the artists' imaginative conceptions, based more or less on Biblical and other descriptions of His personal appearance. The works of Leonardo de Vinci and Raphael, which are the earliest accepted ones and from which nearly all others have been imitated to some extent, are said to be reproductions of the traditionary likeness fashioned after the Greek model of the hero-god Apolo, of the Egyptian Serapis.

Burmese Fond of Flowers.

Who would suspect that in the tropics, in sun-drenched Burma itself, there are acres of gardens given over to nothing else but the cultivation of roses! All through the hot weather, in Lower Burma, they flourish; not till the rains break are they beaten to earth and almost washed away. The Burmese are very fond of flowers; no Burmese house is without them; they are lavished on the pagodas, and women decorate their hair with them.

The Junior Woman's Club met at the home of Mrs. E. E. Smith, Second street, last evening.

Misses Elsie Whitesell. Ebeth Endres, Ruth Young, Roxanna Shope and Amelia Getz will spend this evening with friends in Philipsburg.

A Good Herbal Tonic and Builder

Johnstown, Pa.—"I can highly recommend Dr. Pierce's Favorite Prescription as a tonic and builder and also the use of the 'Lotion Tablets' in solution. I had become run-down and nervous and the 'Favorite Prescription' built me up. After motherhood I took both the 'Favorite Prescription' and 'Golden Medical Discovery' and was quickly restored to perfect health and strength."—MRS. WM. JONES, 418 Robb Ave.

All druggists sell Dr. Pierce's medicines, or send for a trial pkg. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. (Only 10 cents.)

Ford

THE UNIVERSAL CAR

About Ford Cars—Solid Logic.

THE Ford car has been fundamentally right from the beginning. That fact made it "The Universal Car." It has always lead in lowest first cost as well as in lowest cost to maintain and operate. Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor—we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—let's have your order today.

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

MUSTEROLE
WILL NOT BLISTER

Man's First and Last Things.

One of the first things a child wants to do is to get its hands on a lead pencil and make some zigzag marks on a sheet of paper, which it lispingly tells its happy mother is a letter to daddy About the last thing an old man thinks of doing is to get an old stump of a lead pencil and tremblingly make notes for his lawyer, indicating to whom he wants to will his property.

Amateur Farmer's Error

One reason why a town man sometimes fails at farming is because he thinks more of the picturesque woods and rocks on his place than of the ground that's suitable for corn

Tom Wallace, who has been confined to his home with scarlet fever for the past four weks, is able to be out again.

At the fold— double strength

RIGHT at the fold—where so many rubber shoes give way—the U S. Bootee has a solid extra layer of pure gum rubber That's the way U. S. Bootees are built all over—extra strong wherever the hard wear comes.

These tough, rugged shoes are absolutely watertight. They're shaped on the famous U. S. Army last so as to fit the foot perfectly. The feltex innersole and the special friction lining mean solid comfort always.

U. S. Bootees are made by the oldest and largest rubber manufacturer in the world They come in two heights—six eyelets and four eyelets. Ask your dealer to show you a pair!

Be sure to look for the U. S. Seal—it means solid wear and long service for your money.

The Quality Store

The Newest of Gage Hats

We are showing Gage Hats in an assortment of the newest styles, colors and materials particularly adapted for the Spring Season of 1921.

The millinery dollar here reaches the limit of its purchasing power, for in addition to securing hats of unquestioned value and of a high grade of material and workmanship, you get that assurance of authoritative style which adds so greatly to the value of any purchase and which attaches to any model bearing the Gage label.

The selection we have received includes smart styles in the close-fitting and medium brim models that are so popular for early Spring wear.

Some of the hats are made from Gros de Londres and silk combined with braids.. There are also fancy straw and silk hats trimmed with the new cellophane pins and with ornaments and flowers. Bright colored flower trimmed hats predominate. Kandee Cloth, a new fabric particularly adapted for Spring, is specially featured. The colors represented are the newest of the **Leather shades,** including burnt orange, the pheasant shades and golden brown; also coral, henna, navy, brown, delft blue and black, all popular, seasonable and wearable.
Come in and let us show you a line of hats whose world-wide reputation is firmly established.

REICHSTAG MEMBERS LAUGH AT CHANCE OF ALLIES TO COLLECT REPARATION TO THE AMOUNT SET BY COMMISSION

By JOHN DE GANDT
(United Press Staff Correspondent)

PARIS, February 2—Germany today was laughing in the face of the Allies. Laughing in derision at the demand for an indemnity of fifty five billion dollars.

The Allies are faced with the possibility of a flat refusal to pay the huge sum. In that event seizure of the German ports and a forcible collection of customs was contemplated. This, it was admitted, might lead to armed clashes.

Dispatches from Berlin which were eagerly scanned at the foreign office here said that derisive laughter swept the Reichstag when Foreign Minister Von Simons addressed that body and made known the amount of the Allied demand. Von Simons made it pretty clear that Germany will reply that it cannot pay such a sum.

The next move of Germany will be to reorganize the cabinet to demonstrate to the Allies that all parties are united in their attitude against paying a big indemnity.

According to information in official circles Germany expects the moral support of America in this stand and is much interested in the reported intention of Senator France to introduce a resolution limiting the indemnities to what they regard a reasonable figure. Germany will take comfort from the statements of economists in all of the Allied nations to the effect that she cannot afford to pay fifty-five billion dollars.

PENNA. HOUSE PASSES DEFICIENCY BILL FALSE FIRE ALARM IS NOW CRIMINAL

HARRISBURG, February 2—Without a dissenting vote the House today passed the deficiency bill carrying appropriations of $3,238,000. The bill originally called for appropriations to meet a deficiency of $3,479,000. It was amended in Committee upon the recommendation of the Governor following his conference Saturday with department heads and Chairman McKaig of the Appropriations Committee.

A bill making it unlawful to send in a false fire alarm or meddle with fire alarms was the first measure voted out by the House at this session. It passed without a dissenting voice H. H. Finney of Meadville is its author.

STANDARD OIL COMPANY OF NEW JERSEY CUTS BONUS TO MEN ON FEBRUARY 15

NEW YORK, February 2—The weekly bonus to employes of the Standard Oil Company of New Jersey will be discontinued February 15, it was announced here today. This reduction of wages affects approximately 20,000 men employed by the company in West Virginia, Maryland, District of Columbia North Carolina, South Carolina and New Jersey. The company has increased wages 246 per cent. since 1915 according to officials and then provided a bonus for employes until the cost of living was reduced.

NEWBERRY NEARLY 5000 VOTES AHEAD IN SENATE RECOUNT OF MICH. VOTES

WASHINGTON, February 2—The Senate election committee's recount of the 1918 Michigan election was concluded today. The vote showed for Ford 212,751 and for Newberry 217,085.

BRITISH AT TEHERAN IN COMBAT WITH RED TROOPS

TEHERAN, February 2—British soldiers and the Bolsheviki met in battle Saturday, according to military advices here today. British outposts on the northeastern frontier of Persia were attacked by the Bolsheviki advance post. The British vigorously counter attacked killing 12 and injuring 27. There were no British casualties.

U. S. SUB RAMMED BY PILOT SHIP

TEACHER CHARGED WITH CRUELTY TO ONE OF SCHOLARS

A Bell township school teacher has been arrested on an assault and battery and cruelty charge by the father of one of her pupils, who alleges undue severity in the application of corporal punishment.

The teacher is Miss Josephine Diehl and the information which resulted in her being returned to court was made by Claude Sherwood, father of Joe Sherwood, the 13 year old pupil alleged to have been severely punished.

The information, made before Squire McQuown at Mahaffey, charges that "on the 28th of January Josephine Diehl did wantonly and cruelly beat with a club one Joe Sherwood aged 13; that said beating was done without any just cause or provocation. Affiant further says that the legs and body of the boy were terribly bruised as a result of the beating given him; that said beating was done in the school house in Bell township where the defendant is teaching and the boy is a pupil."

When the teacher heard of the information she waived the formality of arrest and hearing by entering bail in the sum of $200 for her appearance at next term of criminal court, where the case will be threshed out.

H. C. KING, N. Y. C. CONDUCTOR, DIED AT HOSPITAL

Received Skull Fracture in Accident On River Line Yesterday Afternoon About Four O'clock.

LIVED AT JERSEY SHORE

H. C. King, aged about 50 years whose home was in Jersey Shore, died at the Clearfield Hospital about 1:30 o'clock this morning as the result of a fractured skull received in an accident which occurred on the River Line of the New York Central yesterday afternoon between 3 and 4 o'clock.

Mr. King, who was a freight conductor on the New York Central was in the caboose of his train coming to Clearfield. The train broke near Gray and when the rear half ran into the front end King was thrown on his head with such force as to badly fracture his skull.

He was brought to the Clearfield Hospital but his injuries were such that medical aid was of no avail.

FAMILY BIRTHDAY CELEBRATION

Benjamin F. Chase arrived at the fifty-second mile stone on life's journey yesterday and as his sister-in-law, Mrs. Joseph R. Chase, was born on February 1 also, a happy family birthday dinner was given in the private dining room at the Dimeling Hotel last evening.

COURT NOTES

Notice of appeal from the award of the Workman's Compensation Board was filed in the prothonotary's office yesterday by the Northwestern Mining and Exchange Company in the case wherein compensation was awarded Mary E. Anderson. In this case the Compensation Board awarded Mrs. Anderson $705.76 to pay funeral expenses and other bills and directed that the Northwestern Mining and Exchange Company make payment of the lump sum and be reimbursed for same by the payment of compensation at the rate of $3.84 per week dating from January 18, 1921, and extending for a period of 277 weeks.

The company contends the compensation board has no authority to make such a decision.

Good Manners Make for Comfort.

Good manners are mainly system in society. In a large sense the whole human race is society. We count it good practice to keep to the right, and those who keep to the left are guilty of bad manners as well as bad practice. Good manners is good system in behavior. System is always labor saving, and we need to look to our manners in this modern day for that reason.

The Opposite Perhaps.

"Hard work will kill no one," declares a literary editor. Most people, of course prefer an occupation with a spice of danger about it.—London Punch.

THIRD WARD HOSE CO. ENTERTAINS AT SMOKER FEED

Fire Laddies Prove They Can Serve Refreshments Just as Promptly As Go To a Big Fire.

MANY TALKS ENJOYED

A very enjoyable "smoker" was held at the Third Ward hose house last evening, the Third Ward boys having decided to treat their members and a few invited guests to a little "feed" on the side.

A business meeting preceded the refreshments more than 60 members of the company participating therein.

The Third Ward company is one of the most aggressive and progressive companies in the department and is always on the job either as hosts or entertainers or when the fire alarm requires their services.

Foreman Whitehill presided at the business session and turned the "feed" over to O. C. Barger, who made a capable master of ceremonies. Talks were made by Cosner Stull, Jack Wise, M. E. Troxell John Harry, J. A. Myers, W. E Spackman, John H. Moore, Eddie Schenck, Foreman Whitehill, Chief A. P. Kreber and J. D. Connelly.

The eats were delicious and the occasion very much enjoyed by all.

GRASSFLAT

A home talent play was held in the U. M. W. of A. hall Saturday evening January 29 by the Dramatic club entitled "The Dutch Detective" which proved very successful. It was well attended by all from far and near We hope the Dramatic club will soon entertain us with another play in the near future. Music was furnished by the Splinterville Orchestra.

A Golden Wedding was celebrated by Mr. and Mrs. Charles Eld, January 28. They were presented with many gifts. The children were all there as follows: Adolf and Oscar of West Va.; August, of Jerome, Pa.; Mrs Wachter and Ellen of Pittsburgh and Esther, Anna, Erie and Elmer, at home. There were also present 34 grand children.

Wilber Edgar Potter late of Clarkston, Wash., passed away January 21, 1921 of acute indigestion. He leaves to mourn his wife and two sons and a daughter. His remains were laid at rest in the United Brethren Cemetery, Sunday, January 28. He also leaves his mother, Mrs. Ida Potter and one sister Mrs. Ida Brown, of Youngstown, Ohio and one brother, Vernon, at home.

The daughter of William Hutching passed away Sunday, January 30, aged 1 1-2 years, named Marie Hutching.

RIVER BRIDGES HAVE TO WAIT ON APPROPRIATION

Which Will be Delayed Until a Few Days Before Legislature Adjourns Says State Official

INSUFFICIENT FUNDS NOW

The following letter was received today from the State Department of Public Grounds and Buildings and is in reference to the Rolling Stone and Deer Creek bridges:

"I beg to acknowledge receipt of your communication of January 27, in which you state that you are desirous of learning something concerning the status of what is known as Rolling Stone and Deer Creek bridges in Clearfield county, which were washed away during the flood in March, 1920.

You refer to your applications for the rebuilding of these two structures which is on file in this office at Harrisburg, but on account of insufficient funds in the appropriations available to this department for the rebuilding of bridges, the matter has been delayed. You ask me to furnish you with whatever information we may have regarding the attitude of the department having this mater in charge and the possibility of an appropriation being made at an early date sufficient to supply these ridges. In reply I beg to advise that we will include in our budget, moneys sufficient to rebuild the two bridges above refered to, but inasmuch as this is one of the items contained in the general appropriation bill, the same is not liable to be passed until a few days before the closing of the session of the Legislature.

Yours very truly,
SAMUEL B. RAMBO,
Asst. Deputy Supt.

SPORTING NOTES

The Columbia Athletic Club of DuBois has arranged a fine boxing program for its Thursday night's entertainment.

Val Grunen, of Pittsburgh, who recently fought Young Jack Dempsey at DuBois, will be one of the attractions in the main bout. He will meet Johnny Griffith, of Rochester, N. Y.

In addition to the big scrap there will be several good preliminaries and a number of Clearfield boxing fans are arranging to attend the show.

Patterson, the Curwensville wrestler, appears to be peeved over Bill Gardner's recent defi in The Progress and told "our devil" over the telephone last evening that he was coming down and clean out this office some day.' We could not quite understand from what "the devil" told us just what Patterson meant, but will say that the office needs cleaning out and we are in favor of having it done—so is the board of health.

We just want to say, however, that in reply to Gardner's recent challenge we received the following from Mr. Patterson:

Curwensville, Pa., Jan. 28, 1921.
Editor Progress:

In regards to the slurry challenge that was in The Progress on January 28 Pat Patterson states he will wrestle Gardner at named date in Clearfield. Conditions winner take all. There is no place in Curwensville to wrestle. Gardner can name the date.

Pat Patterson.

We showed this reply to Manager Edwards, who looks after Gardner's interests, and who is responsible for the challenges issued. The genial manager says Patterson does not meet the issue, as Gardner can easily flop him and he would therefore not prove a drawing card in Clearfield. Hence his offer to meet Patterson in his own home town, but says that if the Curwensville grappler will put up a side bet enough to make it worth while he will have Gardner met him up there in a barn or any old place and toss him for the coin.

Now if Patterson will just turn his attention to cleaning up Gardner and kindly let us attend to that cleaning out of The Progress office we (including "the devil") will have some fun and we'll promise to be present and report the wrestling match.

LUMBER JOBBER FOR SHIREY FIRM IS LODGED IN JAIL

Failed to Keep Appointment With Senior Member of Firm After Obtaining Money for Payrolls.

ARRESTED AT DUBOIS, PA.

M. D. Nerraf, who is said to be from Oil City, was lodged in jail this morning charged with false pretense and embezzlement. The information upon which Nerraf was arrested was made by B. E. Shirey of the lumber firm of Ed. L. Shirey and Son.

It appears that Nerraf had been jobbing for Shirey and Son at or near Bell's Landing. It is alleged that on Saturday last Nerraf came to Clearfield and got an advance of $800 with which to make up his pay roll. Yesterday Nerraf again appeared at the office of the lumber company here and asked for another advance of $250, claiming the first amount insufficient to pay off his men.

Ed L. Shirey then notified Nerraf that he proposed accompanying him to the job in order to check up on the amount of lumber cut to date. The two men got on the New York Central train, but Nerraf said he did not care to ride in the smoker and left Mr. Shirey for the other car. When the train arrived at Bell's Landing Nerraf was missing, and Mr. Shirey found the men had not been paid.

Mr. Shirey notified his office here and B. E. Shirey started out to round up the missing jobber. He learned that the man he was seeking had got on the B., R. & P. train to DuBois at Bloom's Run and the police of DuBois were notified.

Patrolman Morris of DuBois located Nerraf at a DuBois hotel, where he had registered under an assumed name. He was taken into custody and brought to Clearfield this morning and was sent to jail by Squire Chorpenning in default of $500 bail.

WILL ASSIST IN FESTIVITIES

The Clearfield fire department, accompanied by the American Legion Band will visit Philipsburg this evening, leaving here on the 6:28 o'clock Pennsylvania train and returning on the 11:20.

The Reliance Fire Company of Philipsburg will open its four day bazaar tonight and the local boys will take an "opener" or two along to help out.

DIMELING DWELLING HOUSE BURNED

The two story frame dwelling house just above the station at Dimeling, which was owned by the New York Central Railroad Company and occupied by Roy Augustino, the section foreman, was destroyed by fire this morning about 10:30 o'clock. The fire was caused by a defective flue. The damage is placed at $2,000.

NICKEL—ROYER

Joseph Nickel and Miss Clara Royer, both of Boggs township, were married at St. Francis parsonage by Rev. M. A. Ryan yesterday morning at 7:30 o'clock.

TODAY IN CONGRESS

In the Senate

The Senate to vote on the application of the cloture to the Fordney emergency tariff bill. Ford-Newberry recount to be completed. Naval affairs committee names a sub-committee on the naval holiday resolution.

In the House

General Pershing gives his views on disarmament before the naval affairs committee. Charles Dawes appears before the war department expense committee on the purchase of army supplies. Appropriations committee expects to report the naval appropriations bill. Ways and means committee continues hearings on the revision of wool tariff. Foreign affairs committee continues consideration of the resolution for information as to trading with Soviet Russia. Agriculture committee considers bill to prevent gambling in grain futures.

ODDS AND ENDS AND THINGS

By "Skinney"

Where Your Money Goes

The poor and needy and other unfortunate we have with us always, and that it requires a pretty penny of the taxpayers to look after such people in Clearfield county annually evidenced by a little delving into the statistics which are contained in the report of the County Auditors of the receipts and expenditures for the county during 1920

Clearfield county was called upon to support 221 insane persons last year Of the number 141 were males and 80 females They were divided among the different state institutions as follows, together with the cost of each

	M	F	Cost
Danville	69	43	$14,372 70
Warren	23	23	7,647 07
Fairview (criminal)	8	0	1,015 72
Polk (feeble minded)	26	11	915 50
Wernersville	1	0	150 00
Torrance	1	0	126 43
Totals	141	80	$25,916 22

In addition to the above the cost of orphan and incorrigible children made a levy on the county treasury of $7101 51 The county had as wards 43 children They were located as follows with the amount paid to each institution

Children's Home (Clearfield)	16	9	$ 1187 2
St Joseph's Orph H	5	6	731 52
St Johns' Protec	2	0	130 78
Clemans Home (Col)	2	8	70 56
Salvation Army Home	0	2	37 29
Total	28	17	$ 7101 51

The keeping of prisoners in the different penal institutions of the state added another $23,176 45 to the taxpayers' burden This huge sum was necessary to pay for the care and keeping of 301 malefactors, of various degrees of crime They were located as follows, with the cost of each institution

Penitentiary	50	1	$ 1 071 58
Huntingdon Reform	23	0	7 471
Glen Mills	15	12	6,537 72
Totals	88	13	$23 176 45

The above totals are not all that crime and criminals cost Clearfield county during 1920 The expense of maintaining the county jail added another $8,000 to the bill while Commonwealth costs paid by the county totaled $2306 42 The District Attorney got another $3,000 while Grand Jurors were paid $936 88 and Traverse Jurors drew down $9,825 00 The traverse jury fees were not all for criminal cases The pay of the tipstaffs amounted to $838 As an offset to some of this expense $1195 was received by the county in the way of fines

The County Home added in the neighborhood of $45,000 or $50,000 more to the general bill This was divided as follows

Maintainance of inmates	$19 473 37
Salary employes	7,697 91
Supplies	5 585 60
Incidentals	1 765 99
Miscelaneous overhead ex	$4 200 09

Then as a further insight into where your money goes we find the following expenditures in a cursory glance through the figures

Mothers' pensions	$2 272 30
The state pays a like amount to this fund	
Birth and deaths registry	$1084 55
County officials salaries	3 199 25
Assessors	10 776 08
Bridge repairs	10 095 00
State roads, damages, detour etc	4 938 86
Farm bureau	1 500 00
Election expense	14 971 67
District Physicians	2 481 25
Outside relief	20 356 17
Outside burial	1,001 85
Burial of soldiers during the war cost	$2500 00
Burial of soldiers wife	75 00
Memorial Day appropriations	000

The County Home farm raised according to an estimate of the county auditors farm produce to the value of $14 280 00

In addition to this amount the county Bridges in accordance with an agreement with the County Commissioners providing for the payment of a fixed sum per capita for the keeping of the poor in their own homes amounted to $1711 but not all

SHE WASN'T SICK, BUT HER CHILDREN WERE

Six Months of Cars and Worry Were Too Much for Her

GOT THIN NERVOUS, TIRED

Her Brother-in-Law, a Doctor Said She Was Anemic, and Advised Pepto Mangan

Here is a story of a strong, vigorous mother who never knew what ill health was But three years ago her two little boys got into the habit of being sick.

Six months of care and worry were so much for her and brought to light the fact that with all her apparent vigor she really was anemic She lost flesh couldn't sleep well and got nervous

Then the doctor (her brother-in-law) prescribed Pepto-Mangan.

She said He explained a lot but it was special sort of non-content in Pepto Mangan, and a lot of other things that I don't understand but what I do know and is that a bottle of Pepto Mangan always seems to help me when I feel my worst It contains I don't know just what but it sure makes me feel stronger and rested

Get a Pepto Mangan Tablet or liquid today at your druggist's Start at once to enrich your blood and note how much better you feel and work in a few days Sold by druggists everywhere in two sizes liquid or tablets

KEYSTONE
The ICE CREAM THAT EVERYONE LIKES

ALL TIRED OUT

Hundreds More in Clearfield in the Same Plight

Tired all the time.
Weary and worn out night and day.
Back aches; head aches.
Your kidneys are probably weakened
You should help them at their work.

Mrs. Jane Graham, 125 Fulton St, Clearfield, says: "I suffered from kidney complaint some time ago. There was a dull ache in the small of my back and I had severe headaches. I also had a tired feeling in my loins. On using one box of Doan's Kidney Pills the backaches and headaches left and I didn't have that dull, tired feeling any more. I think Doan's Kidney Pills are a wonderful kidney remedy and I found them to do me a lot of good from the start. Two boxes of this medicine fixed me up in fine shape. Since then, when I have had an attack of that kind, I have used Doan's and have always found them to bring good results."

Price 60c at al dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Graham had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. No griping results from these pleasant little tablets. They cause the liver and bowels to act normally. They never force them to unnatural action. Dr. Edwards' Olive Tablets are a soothing, healing, vegetable compound mixed with olive oil.

If you have a bad taste, bad breath, feel dull, tired, are constipated or bilious, you'll find quick and sure results from Dr. Edwards' little Olive Tablets at bedtime. 10c and 30c a box.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

Remember Your Income Tax

Now is the time to begin to figure the income tax. It is an irritable job, even if the process has been somewhat simplified since the last payment. Failure to file the tax report carries with it a fine not to exceed $1,000 and an imprisonment sentence. Space prohibits our setting forth all the provisions of the income tax law. Full information can be obtained from your local banker.

Watch the Brood Sow's Feed

One is tempted to keep his brood sows too fat for best results. It is a strange fact that a sow too fat will produce pigs that are underweight and few in number. So the sow's feed should be chosen wisely, limiting the fat-making elements. She should have feed that is rough and high in protein. Alfalfa hay is exceptionally good Above all else, see that she is not closely confined, but has room to exercise.

Hitching Horses in the Cold

How would you like to carry a load for several miles, these cold days, and then be forced to stand still out in the cold for an hour or so, without any extra wraps? Not many would survive. It's just as cruel to treat a team of horses so. But in these days of near zero weather one can see many horses hitched along Main street, with no sign of blankets. For the lessening of this evil, the United Horses' Union doubtless would, if they could, give a unanimous vote of thanks to Henry Ford.

Brush Destroyers at $3.00 a Head

Sheep are now down to the ridiculously low price of $3 a hundred pounds, which means that full grown ewes will bring about $2 to $3.50 a head—about one-tenth their price two years ago this Winter. Then every one was buying. Now no one wants them. But right now the rule of the old Montana horseman is worth remembering. He made his fortune, he says, by selling when the majority wanted to buy, and buying when every one else wanted to sell a mighty sensible plan to follow. Sheep will not stay long at such an absurd price—the cost of two good hens. If one got them only to clean up his place, to mow down his weeds and destroy the brush, they would be worth more than their present price.

Don't Buy Newly Fresh Cow

The best time to sell a milk cow is when she is just fresh. And following the logic of this truth, that is theoretically the poorest time to buy. It is in fact. It is a mistake made by many young dairymen—and old ones, too, for that matter—as is evidenced by the big prices these cows bring at every public sale. The newly fresh cow displays all her virtues and none of her defects. All that can be told about her is that she gives a big volume of milk, but one knows not how long it will continue, nor even its degree of richness. A far better rule is to buy cows whose calves are at least two months old.

Planning the Year's Work

Planning the next year's work with pencil and paper is not practiced enough. The great good that comes from the outlining of a definite program is the setting of standards towards which to work. The program should include every phase of the farm work, and it is worth while to talk it over with the boys and the female side of the family. Certain fields should be allotted to corn, others to oats, etc., the yields estimated, and plans made for handling the grain. Such advance planning stimulates the interest of the young folks, for it cements the efforts and directs them toward a common object. A proposal of a bonus for high yields or exceptional success with poultry, dairy, etc., above a previously determined quota, helps solve the problem of how to keep the young folks on the farm.

Mrs. Charles Hile left yesterday for Homer City, where she will spend several days with relatives.

Miss Mildred Sample has returned from spending the past few days in Spangler.

Mr. and Mrs. Paul Rook spent today with friends in DuBois.

Mrs. Harry Buchanan and son, Marvin, left yesterday for Pittsburgh, where Mrs. Buchannan will attend the convention of Children's Home representatives, which is being held there the latter part of this week.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

George McClure, who has the contract for cutting timber and supplying the mill operated by the Greenwood Lumber Company on Poplar Run with logs, will finish cutting in about two weeks more. There are about half a dozen or more Curwensville men working on the job, all of whom are good, live men in the woods. Eighty logs per day for a two handed crew is not such a bad day's work in hardwood lumber.

J. C. Wright is the new foreman on the construction work of the Bigler coal railroad in Pike and Lawrence townships. The road is being built for the purpose of taking away the coal under the Jesse Garrison Rowles, Bloom and Morgan lands which the Bigler company purchased last Fall. It will be some road when completed, having a good many curves, hooks, crooks and turns before making connection with the loading chutes. "Boots" Connelly is the contractor and with Mr. Wright, a practical railroad man, as foreman, is a guarantee that the job will be well and mechanically done.

The mild weather of yesterday about spoiled the sledding of the past few days. Percy Holton, the Filbert street restaurant man, is about the only person we know of who enjoyed the snow while it lasted, he having a horse and sleigh and was out every day, giving some friend a reminder of the old days by giving him a ride and a chance to hear the sleigh bells tinkling. Percy is not one bit selfish, and likes to make things enjoyable and pleasant for every one.

John Kelly, the most expert hunter we know of in this section and who shot more foxes this season than all of the town hunters put together, liberated about a dozen rabbits in the hill woods above his home on the south side of Anderson creek several days ago.

IS DOWN TO REAL BUSINESS AGAIN

District Manager Bailey Tells Of Wonderful Change in Condition

A. D. Bailey, district manager of the Continental Casualty Co., with offices at 1118 11th St., Altoona, is another prominent Pennsylvania business man who adds his name to the hundreds of other prominent men who have publicly endorsed Tanlac.

"I certainly feel very deeply indebted to the friend who advised me to take Tanlac" he said, "for I can conscientiously state that it has done me a world of good.

"For one whole year I felt myself gradually slipping and was on the verge of a nervous and physical breakdown. I was not only losing weight but my old time strength and energy had gone, which made my daily routine of business calls more tiresome. I was troubled a great deal with shortness of breath and when I went to climb a hill or steep flight of steps, became completely exhausted upon reaching the top. I felt that I was becoming old before my time. Nearly every day I had a severe headache and often while sitting at my desk would become so dizzy and confused that I would have to discontinue work for a while, then I would feel too worn out and weak to resume the day's duties.

"But since taking Tanlac my friends all say that I am the picture of health. I am certainly feeling fine. I have a wonderful appetite, which is gradually giving me back my old strength and energy. My breathing is as regular as a child's and I never have the least trouble, no matter how fast or how much I walk. My office looks good to me and it is a pleasure to be able to get down to real business again. Tanlac is a dependable medicine and it has my hearty endorsement."

Tanlac is sold by all leading druggists everywhere.

DuBois Indiana Punxsutawney

Misses Frances Lynn, Margaret Lynch, Mildred Mellott and Celia Ross will spend this evening in Philipsburg.

Phil Rhinehart and Clair McCorkle attended the Mason-Dixon dance in DuBois last evening.

Mr. and Mrs. George McCullough spent yesterday with relatives here.

HEALTH OF WOMEN

How many perfectly well women do you know? Isn't it true that in order to keep up with the march of progress the endurance of women is often strained to its utmost and the tax upon her physical system is in many cases greater than she can stand. Headaches develop, and nervous irritability, backache, dragging down sensations, and other painful ailments peculiar to women. The reliable remedy when a woman gets into such a condition is Lydia E. Pinkham's Vegetable Compound, as for nearly half a century it has proved the natural restorative for these troubles.

ESSEX

The New Essex Cabriolet

Note How Former Big Car Owners Turn to Essex

We think nothing so typifies the position Essex has earned among cars of fine quality as the way in which it has found favor with men who formerly owned large, high-priced cars exclusively.

The uses of most motorists are not best served by a large car. Bigness and weight are definite handicaps in city driving.

Yet thousands who now drive the Essex, formerly accepted these handicaps and paid a premium to secure the big car performance, comfort and distinction, which no light car offered, prior to Essex.

Alexander White, declared to be Scotland's greatest preacher, died recently. Our townsman, Alexander Paterson once sat under the spell of his logic and oratory and was so interested in him that he inquired into his career. Mr. Paterson found that the reverend started life as a shoemaker. Pegging away will land any man at the top.

WHEN WILL WE BE SATISFIED?

Never. That is a foregone conclusion but in this matter of price reduction when will we look upon the prices of the necessities we buy with a feeling that thy are just and right? One need only peruse the advertisements printed daily to see wonderful reductions in many lines, reductions which we had no reason to hope for four months ago. The price level has been brought down on practically everything we buy and in reversal of the old saw that it is an ill wind that blows nobody good we might add that our fortune is another's misfortune. Farmers have no market for cotton and wool or grain. The brick, coal, silk, cotton and woolen workers are working short time.

Just to face the question squarely, what do most of us have in mind when we think of FAIR prices?

We think of LOW prices.

That's about the fact isn't it?

But when we realize that LOW prices, if pushed low enough, MUST mean low WAGES and SALARIES, then we are fairly sure that we don't want to go the LIMIT!

We don't want to carry the thing TOO far!

When we carry ANYTHING to an extreme, we usually get hurt as badly as the other fellow.

The fact is that whatever I do, or you do, affects someone else—for good or for ill.

If each of us—each of the 100,000,000—does something good and constructive, the whole public is bettered at once.

And, the reverse, likewise, is true.

We can bring things to an utter standstill by waiting longer for lower prices. We do not need to buy simply for the sake of buying but we can buy what we need and promote the general welfare. Purchases needlessly withheld, hurt the retailer first—after that they hurt all—the manufacturer, the producer of raw material and finally, but not last, the worker, you and I.

Buy prudently but buy now. Scan the advertising columns closely. You will be surprised at the change in prices.

Working of Pearl.

There are two kinds of shells used in the manufacture of small articles, the porcelaneous and the nacreous. The former are extremely hard and can be worked only with the apparatus used by the lapidary. The latter are more generally used and may be sawed, filed and turned with some facility. The pieces should be roughed out on a common grindstone. After turning they should be smoothed with pumice stone and water, and polished with rotten stone with sulphuric acid slightly diluted.

PEGGY coughed for an hour after bedtime until Mother thought of Kemp's Balsam. A half teaspoonful quickly relieved the irritation, after which she soon went to sleep.

BUSINESS AND TRADE

With Special Attention to Coal, Clay and Brick Trade News of Local Interest.

SALIENT FEATURES OF THE CALDER COAL ACT

To promote the "general welfare" and to recognize and declare coal and its production charged with public interest and use, and for other purposes, Senator Calder introduced on January 10, 1921, his bill to regulate the coal industry. The "Federal Coal Act," for it is so officially designated and therefore travels under no alias, charges that coal and its sufficient and economical production and proper distribution, and information respecting "ownership, production, distribution, costs, sales and profits in the coal industry are necesary to the general welfare of the people of the United States" and to Congress for the purpose of legislating respecting interstate and foreign commerce, public health, taxation and other matters, and that the coal industry in all its phases is "hereby declared to be charged with public interest and use."

The Federal Trade Commission is given sweeping powers and directions as to requiring and obtaining current reports from all engaged in the production and sale of coal with no limit as to its inquisitorial power. Even consumers may be required to furnish information as to coal consumption and stocks. The commission is directed to collect certain minimum data currently and to make reports to Congress and to promptly publish its findings. The commission "shall" name any who are judged guilty of having charged a price deemed unreasonable.

All reports to the commission are nevertheless declared to be confidential and are to be rendered under oath. The commission may, however by a majority vote of its members publish any individual report if deemed in the public interest and any court of competent jurisdiction may require and shall be furnished reports of individuals or of separate companies.

Associations having to do with the coal industry are designated for special investigation, for which the full powers conferred by the bill are declared available, again when deemed necessary in the public interest.

Railroads are required to submit detailed information to the Interstate Commerce Commission, and that commission is directed to collect from the roads data regarding mine rating, loading, movement, reconsignment and other matters. To settle any doubts that may arise as between the reports submitted, as, for instance, regarding car shortages, by the operators to the Trade Commission and by the railroads to the Commerce Commission, these two bodies are adjured to "get together" on the facts.

Survey to Continue to Publish Reports

It also is provided that the Geological Survey shall continue its present series of reports in all details and shall publish them and any additional data that may be required in the public interest. One important feature for the Survey is the provision that the Federal Trade Commission and the Interstate Commerce Commission are authorized and directed to use their legal powers to obtain any reports the Geological Survey may not be able to obtain on its present purely voluntary basis. In other words, the Survey will be given power indirectly to require reports, whereas now it has no such power and has not asked for it. The act gives no powers to the Survey, but confines them to the two other agencies named. Access to books of coal companies and right to subpoena papers, records and witnesses is conferred on the Federal Trade Commission.

Neglect or refusal to meet the demands of the commission may be penalized by fines of not less than $1,000 or more than $5,000 or by imprisonment of not more than one year. A penalty of $100 per day is provided for neglect to make reports, and heavy fine or imprisonment for making incorrect reports Any employe of the Federal Trade Commission who shall divulge without authority any confidential information is liable to $5,000 fine, jail sentence, or both.

To furnish a check on what is going on the bill says that the president shall issue a license to any and all who fall under the jurisdiction of the Federal Trade Commission, and any who shall wilfully engage in the coal business without such a license in good standing and shall be liable to a $5,000 fine or jail. Each applicant for a license must agree in writing to rigidly abide by the requirements of the act.

No license may be required from any operator or dealer whose gross sales during this preceding fiscal year were less than $50,000. Section 12 is one of the most striking in the act in that it states that when the Federal Trade Commision shall determine that an emergency exists or threatens in the coal industry, which seems likely to produce a shortage or bring about unusual or unwarranted or unreasonable prices in coal and to be detrimental to the public health in any part of the United States and the president shall have concurred in such determination by the commission, the president is authorized to declare the existence of an emergency which threatens the public health, and he is empowered to fix a maximum price, commissions and margins during that emergency. He is further empowered to revoke the license of any operator or dealer who shall exceed the maximum established by him, in addition to which, of course, the producer or dealer so exceeding the legal limits is liable to fine and imprisonment. The president is authorized to deal in coal and to control production, movement and distribution to the extent that it may be necessary, again for the protection of the public health.

Except that industrial concerns may own and operate coal mines for their own use and consumption, Section 13 forbids any owner, operator or dealer to sell coal to any concern in which he or any agent of his shall have an interest, except the sale be made under competitive bidding.

Coal procured directly from an operator by a dealer and sold to another dealer is subject to a brokerage tax equivalent to one-half of the commission or margin in excess of 15c. a ton and not more than 30c. a ton. Where the commission or margin exceeds 30c. a ton the brokerage tax that shall be levied under Section 14 of this act is equivalent to three-quarters of the total.

Heavy Tax on Trade Between Dealers

Trading in coal between dealers in coal, not obtained directly from operators, is practically prohibited by the levying of a tax of 90 per cent on all commissions or margins in excess of 5c a ton. No tax shall be assessed against any dealer whose gross annual sales during "his preceding fiscal year" aggregate less than $500,000 on sales of coal procured directly from operators.

The Department of Labor and the Bureau of Mines are thrown in for good measure. The Secretary of Labor is directed to investigate wages, working conditions and other matters pertaining to the workman, in order to supply information for use at any time of general readjustment of wage contracts in the coal industry. The Bureau of Mines is directed to investigate mining methods, storage of coal and other technical matters, none of which apparently represent new duties or powers for that bureau. It is, however, provided that the Bureau of Mines shall investigate and report on statutory standards and inspection for the various kinds and grades of coal.

The Federal Trade Commission, the Interstate Commerce Commission and the Geological Survey are given blanket authority, through the president, to call for any and all information in the possession of any other government office or for the detail of personnel. The president also is authorized to transfer personnel, equipment, records and funds from one bureau to another, as may be deemed necessary in fully carrying out this act.

The aforesaid triumvirate also are directed to keep their records thoroughly revised and available for immediate reference, and subject to the call of any private or public board, state or federal, for use in settling any labor dispute.

The Federal Trade Commission and the Interstate Commerce Commission are given power to make and enforce rules and regulations and to prescribe the method of procedure, it being specifically provided that this act does not limit or repeal any of the powers of either of these agencies under existing law. To permit the carrying out of the detail work called for by the act, $10.000 a year is to be appropriated to the Geological Survey, the same amount to the Interstate Commerce Commission and $25,000 to the Federal Trade Commission.—Coal Age.

Mrs. P. W. Rolley, of Karthaus, was shopping in town yesterday.

Misses Eva McGowan, Celeste Bonner and Ethel Shade attended the dance in DuBois last evening.

Mrs. T. H. Langford and daughter, Esther, of Surveyor, shopped in town today.

Lytle Brothers

Mrs. Frank Harris entertained at a bridge last evening at her home on West Fourth avenue. Four tables of bridge were in play during the evening.

Back Hurt?

When the kidneys do not properly do their work or purify the blood stream, waste products and poisonous acids remain in the system and cause backache, rheumatic pains, lumbago, sore muscles, swollen joints, stiffness, lame back and similar symptoms.

Foley Kidney Pills

regulate and restore the healthy, normal action of kidneys and bladder, bringing clean blood and better health, with freedom from aches and pains.

J George Hudgins, Bennington, Vt writes: "Last fall I was attacked with lumbago and suffered untold agony. I had a severe pain across my back and at times could not dress or undress myself. I was advised to take Foley Kidney Pills for my trouble. After taking them for a few days the pain in my back left me and I have not had any lumbago since that time, although that was months ago. I recommend Foley Kidney Pills to all who have lumbago."

Pictures of Christ.

Pictures of Christ represent the artists' imaginative conceptions, based more or less on Biblical and other descriptions of His personal appearance. The works of Leonardo de Vinci and Raphael, which are the earliest accepted ones and from which nearly all others have been imitated to some extent, are said to be reproductions of the traditionary likeness fashioned after the Greek model of the hero-god Apolo, of the Egyptian Serapis.

Burmese Fond of Flowers.

Who would suspect that in the tropics, in sun-drenched Burma itself, there are acres of gardens given over to nothing else but the cultivation of roses! All through the hot weather, in Lower Burma, they flourish; not till the rains break are they beaten to earth and almost washed away. The Burmese are very fond of flowers; no Burmese house is without them; they are lavished on the pagodas, and women decorate their hair with them.

The Junior Woman's Club met at the home of Mrs. E. E. Smith, Second street, last evening.

Misses Elsie Whitesell. Ebeth Endres, Ruth Young, Roxanna Shope and Amelia Getz will spend this evening with friends in Philipsburg.

A Good Herbal Tonic and Builder

Johnstown, Pa.—"I can highly recommend Dr. Pierce's Favorite Prescription as a tonic and builder and also the use of the 'Lotion Tablets' in solution. I had become run-down and nervous and the 'Favorite Prescription' built me up. After motherhood I took both the 'Favorite Prescription' and 'Golden Medical Discovery' and was quickly restored to perfect health and strength."—MRS. WM. JONES, 418 Robb Ave.

All druggists sell Dr. Pierce's medicines, or send for a trial pkg. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. (Only 10 cents.)

Ford

THE UNIVERSAL CAR

About Ford Cars—Solid Logic.

THE Ford car has been fundamentally right from the beginning. That fact made it "The Universal Car." It has always lead in lowest first cost as well as in lowest cost to maintain and operate. Runabout, Touring Car, Coupe, Sedan, Truck and Fordson Tractor—we have them all and will make reasonably prompt delivery.

Simplicity has ever marked the designing and building of Ford cars, trucks and tractors. Henry Ford and his engineers have always striven for simplicity with strength. The success of the Model "T" Ford car and a great part of the Ford Motor Company's success has come from an early understanding and appreciation of that principle in motor car construction. The fewer the parts in a car, fewer the parts to go wrong. When that simple truth is carried out in producing a car, as it is in Ford cars, trucks and tractors, the result is bound to be a simplicity of design and building that means simplicity, durability and economy of operation.

This simplicity of construction proves itself in the ease with which Ford cars, trucks and tractors are driven. Four million five hundred Ford cars in daily service proves every claim we make.

More than ever we are sure the Ford car is your necessity—let's have your order today.

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister.

Musterole usually gives prompt relief from sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

MUSTEROLE
WILL NOT BLISTER

Man's First and Last Things.

One of the first things a child wants to do is to get its hands on a lead pencil and make some zigzag marks on a sheet of paper, which it lispingly tells its happy mother is a letter to daddy About the last thing an old man thinks of doing is to get an old stump of a lead pencil and tremblingly make notes for his lawyer, indicating to whom he wants to will his property.

Amateur Farmer's Error

One reason why a town man sometimes fails at farming is because he thinks more of the picturesque woods and rocks on his place than of the ground that's suitable for corn

Tom Wallace, who has been confined to his home with scarlet fever for the past four weks, is able to be out again.

The Quality Store

The Newest of Gage Hats

We are showing Gage Hats in an assortment of the newest styles, colors and materials particularly adapted for the Spring Season of 1921.

The millinery dollar here reaches the limit of its purchasing power, for in addition to securing hats of unquestioned value and of a high grade of material and workmanship, you get that assurance of authoritative style which adds so greatly to the value of any purchase and which attaches to any model bearing the Gage label.

The selection we have received includes smart styles in the close-fitting and medium brim models that are so popular for early Spring wear.

Some of the hats are made from Gros de Londres and silk combined with braids.. There are also fancy straw and silk hats trimmed with the new cellophane pins and with ornaments and flowers. Bright colored flower trimmed hats predominate. Kandee Cloth, a new fabric particularly adapted for Spring, is specially featured. The colors represented are the newest of the **Leather shades,** including burnt orange, the pheasant shades and golden brown; also coral, henna, navy, brown, delft blue and black, all popular, seasonable and wearable.
Come in and let us show you a line of hats whose world-wide reputation is firmly established.
